

KEROSENE

Bitumen Cutter

DESCRIPTION

Bitumen Cutter is clear solvent that is designed to cut back bitumen without the use of heat. It is used in many applications where bitumen needs to be extended or cleaned from hard surfaces such as steel and concrete.

FEATURES

A medium flash point solvent that is compatible with all grades of conventional bitumen.

Does not require heat or other chemicals to function effectively.

Versatility – **Bitumen Cutter** can be used in many other applications as a degreasing fluid due to its strong solvency power.

Cost Effective – **Bitumen Cutter** is relatively inexpensive compared to other aromatic solvents used for thinning bitumen.

PACKAGING

Bitumen Cutter is available in bulk, IBCs (1500 litre bulk containers) and drums.

SAFETY

Please consult the MSDS on **Bitumen Cutter** before use.

The information and recommendations contained herein are based on data believed to be correct at this time. However, no guarantee of any kind, expressed or implied is made with respect to the information contained herein.

Typical Characteristics

Specific Gravity.....	0.790
Flash Point.....	38 °C
Boiling Range	150-260°C
Aromatic Content.....	20%
